

## Job Posting – Developer (m/f/d)

**Location:** Hamburg, Germany (Remote)

**Employment Type:** Full-time · Remote

**Salary Range:** €65,000 – €90,000

### About Apptivate

Apptivate is a Hamburg-based start-up building the next-generation growth engine for mobile apps. We connect creators and apps through smart data, performance insights – and soon, our own platform for influencer collaboration.

### Your Role

As a Developer at Apptivate, you'll take a leading role in building our new web platform that enables influencers to discover, join, and manage campaigns in one place.

- Design and develop core features of the creator dashboard
- Build clean, scalable, and secure front- and backend systems
- Collaborate closely with product & design to ship fast
- Integrate APIs and third-party tools (tracking, auth, etc.)
- Help shape the future of our tech stack

### What You Bring

- Solid experience in full-stack or frontend development
- Familiarity with React, TypeScript, Node.js or similar frameworks
- Experience with building responsive, high-performance web apps
- Clean code mindset and focus on good UX
- Passion for building tools that creators actually want to use

### What We Offer

- Full ownership of a product used by thousands of creators
- Freedom to shape architecture and technical direction
- Remote-first setup with async-friendly workflows
- A creative team with big plans and short paths
- Competitive salary and room to grow with us

Help us launch something creators will love – and build the product you've always wanted to work on.
